The following recommendations have been furnished grantitously—

Lonisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very nell devised, and in point of mechanical construction, are the best I have ever some.

It is to be hoped that the use of these rolls may become general as an important aexiliary defenre against a danger which must be regarded as at no ordurary magnitude, to which in didings are liable.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Chechmatt, Ohio, and regard them as constructed in conformity to the general throat of the electric. fluid; and the Gilded Copper Rameled Philais, as promising, from the results of several tests to which they were submitted; to resist for years the action of those atmospheric causes must likely to corrode them.

KIDDER'S GAS REGULATOR.

The Regulator is small, simple, easily applied; when once adjusted requires no further attention. The disagresable effect of Gas upon the complexion is almost entirely obviated by the use of the Regulator. The light being more agreeable in color and less injurious to the eye. The unleading tomather excape of unconsumed gas are also remedied, besides a great saving is effected by its use, not only from the intense pressure from the street, but also when part of the lights in the room are extinguished the pressure accessarily necessing on those still burning, so that a large portion of the gas escaping unburned, and is of course was-ted.

The Gir Regulator is highly recommended by the press at large. For rale in size suitable for Manufactories, Hotels, Stores, Offices, and private dwellugs.

The old Market building on Farry Wharf was sold at auction on Saturday 1. 1; a small portion of the West end has been reserved for the use of the farmers from Jamestown, for the sale of their poultry, butter, eggs, cheese, &c. The other portion of the building is now being removed. We learn that it is the intention offthe City authorities to locate the drays, express wagons,&c. on Market Square,on the ground occupied by the Market. This will relieve Thames street from the pressure of the summer, when so many carriages are on the street; it will also be a good location for express wagons, &c., where they can be readily found at all times by those who may want to use them.

Going !! -- We would say to our readers who wish to visit the splendid axidbition at Bellevue Hall, that they can have but one more chance, as it positively closes to-night. We prenounce it the best thing that ever visited us, and probably we shall not look upon its like again. A splendid bill will be presented to night, in which new songs will be introduced by Miss Ella Lee and Mr. Daniels. Also several new feats of legerdemain will be performed, and the comical Mr. Lyman will astonish us with some funny sayings, jokes and banjo solos; you will have to go early to procure a seat. Reserved seats can be lead through the day by applying at the hall. We predict a great rush. Remember 'tis your last chance.-Tickets only fifteen cents.
